

Aeronautical Engineers

Division: Technical Operations

Location: Athens International Airport, Building 57, Spata

Type of Employment: Full-time

Deadline: 07/04/2024

About us

AEGEAN, based in Athens, Greece, is a member of the Star Alliance Group since 2010 and a proud winner of 13 SKYTRAX World Airline awards for 'Best Regional Airline in Europe'. Our employees have been instrumental in our success, through seeking to channel their energy and motivation into the challenging industry of aviation, providing services of high standards across all travel stages and contributing to the continuous improvement of our products. We are looking for enthusiastic, talented and dedicated individuals, who can drive our organization forward.

If you wish to explore the exciting world of aviation, join our team!

About the role

We are currently looking for enthusiastic **Aeronautical Engineers**, who will apply their expertise, knowledge, and skills in relevant Departments of our Technical Operations Division. If you are looking for a role which will offer you hands-on experience into the dynamic industry of aviation and the opportunity to transform theoretical knowledge into practical application, this role is for you!

What you will do:

- Evaluate and monitor the compliance of Airworthiness Directives, Service Bulletins and Modifications related to Airframe Systems, Structures and Avionics
- Communicate with all stakeholders (Manufacturer, contracted Maintenance Organizations, Shops, etc) for related queries
- Provide support to Maintenance Control Center (MCC), Line/Base Maintenance and Shops
- Contribute to the monthly and annual Reliability review for technical issues related to Engineering and relevant components
- Manage and execute various Projects related to company requirements
- Co-ordinate with Repair Stations and evaluate component Shop reports
- Provide support in relation to aircraft phase-in/out of the fleet (Deliveries/Redeliveries)
- Contributing to continuous improvement initiatives to enhance overall fleet efficiency.

You fit if you cover the following requirements:

- Bachelor's degree in Engineering, preferably in Aeronautics
- Previous experience in aviation industry will be considered an asset
- Familiarity with aviation regulations will be considered an asset
- Fluency in oral and written Greek and English
- Excellent knowledge of MS Office

You have competence in:

- Communicating effectively with both technical and business experts
- Working collaboratively, demonstrating team spirit
- Analytical and process-oriented thinking
- Paying attention to detail
- Problem-solving, prioritizing and managing time effectively

If you pursue your career journey with AEGEAN, on top of a challenging job, we offer:

- A working environment where you feel valued and appreciated
- Excellent career and development opportunities within the organization
- Flight tickets
- Private health insurance scheme

**If this looks like an interesting opportunity for you,
send us your application now!**

Your application shall contain your CV in English language and is to be submitted until **April 7, 2024**. All applications will be treated as strictly confidential.

Please note that only shortlisted candidates will be contacted.

Keep on following us to find a job opening that matches your profile.
