

For over 15 years REAL CONSULTING has delivered improved operational effectiveness and efficiencies through technology driven, innovative solutions and client service excellence. With more than 300 customers across Europe, REAL CONSULTING takes pride for having implemented some of the most complex, large scale and demanding projects in Greece. The company is committed in guiding its clients along the path of innovation and digital migration, through the adoption of cutting-edge technologies such as Real-Time Business, IoT and Omni-Channel Experience.

REAL CONSULTING is looking for passionate professionals, willing to join our leading SAP services team in Athens with the following competencies: Financials (FI, CO), Logistics (MM, SD, PP, PM), Development (ABAP, PI) and SAP Basis.

Desired Skills & Experience

- You have a bachelor or master degree
- 1 – 4 years' experience will be considered as an advantage
- You are a team player with strong communication skills
- You want to further develop your functional and technical SAP competencies in challenging projects, including the newest SAP technologies (such as HANA)
- You are fluent in English. Knowledge of German is highly appreciated

Our offer:

Next to a working environment that is deeply respectful of your individual progression in skills and competencies as a consultant, Real Consulting offers top-class projects for major clients. RC is the biggest SAP implementation partner in Greece and guarantees continuous investment in training and commercial activities.

If you feel passionate about delivering results, sharing our client-intimate culture and want to be part of Real Consulting professional team, then do not hesitate to send us your CV at jobs@realconsulting.gr

We look forward to meeting you!
