

qmetric | HR & Career Solutions is currently recruiting, on behalf of [Validata Group](#), for their brand new offices in Thessaloniki, the position of

Senior C# Developer (Job opening ID: SCD6)

The company

[Validata Group](#) is a fast-growing multinational company, developing innovative solutions for the Banking sector since 2004. Due to their continuous expansion, we are seeking to recruit a talented Senior C# Developer who enjoys delivering quality software that meets customers' needs.

Your profile

Our ideal candidate is someone who shares Validata's love for quality and doing things the right way. Writing tests, structuring the abstractions cleanly and polishing the code until it shines should be your desire. We're looking for a Senior Developer, who is not afraid to learn new things and work on hard problems. In order for you to be able to successfully carry out the duties of the job, you should possess the following:

- At least 6 years of experience in building commercial .NET Framework applications with C#
- At least 10 years of experience in professional software development
- Ability to produce high-quality maintainable code
- Knowledge of OOP and multi-tier architecture
- Very good written English
- Willingness to learn & advance in new technologies
- Team-playing attitude.

Desirable Skills:

- Experience with Oracle or MS SQL server
- Experience with Telerik UI controls (ASP.NET or Windows Forms)
- Experience working with a large code base
- Experience with Banking systems (especially Temenos T24)
- Recent Microsoft certifications
- Degree in Computer Science or equivalent

Our Client offers

In case you are selected for the specific position, you will have access to the following:

- Very competitive salary and periodic increase responding to your skills
- state of the art hardware and software
- Regular holidays and vacation time
- Friendly informal work environment
- International career opportunities

Are you interested?

Are you thrilled by the prospect of advancing your already successful career and developing professionally in an innovative and well-established multinational company?

If yes, please click [here](#) to submit your application.

Our company treats each application with strict confidence
