

CONSOLIDATED CONTRACTORS COMPANY

WHO WE ARE:

We are a leading diversified multinational company operating to deliver Building, Civil Engineering and Oil & Gas projects encompassing construction, engineering, procurement, development and investment activities.

Having been in existence for more than 60 years, we currently hold the 21st place in ENR's Top 250 International Contractors List. Our operations bring together talented people from 80 nationalities who collaborate safely and harmoniously across the globe to complete complex and demanding mega-projects that improve the quality of life of millions.

While we go about our impressive work accomplishments, we never lose sight of our unfailing commitment towards the wellbeing of our workforce and that of the people in the countries we operate, our sensitivity towards our environmental heritage and our pledge to implementing ethical principles in our business transactions, as our UN Global Compact membership demonstrates.

Our growth and profitability are maintained through innovation, technical enhancement, adaptability and a consistent quest for excellence.

We have a strong commitment to offering continuous development and rewarding careers to our employees combined with the highest standards of safety and health, job security, and welfare which explains our phenomenally low employee turnover ratio.

Throughout our endeavors we strive to be second to none. <http://www.ccc.net/>

WHO WE ARE LOOKING FOR:

We currently have an opening for driven, hard-working and talented civil engineers from NTUA who would like to pursue with us an international career in Project Controls (planning / scheduling, cost engineering, progress monitoring and reporting).

Our job sites are scattered around the world — we have no activities in Greece - with our main activity centered on the Middle East. Employment would include a period of orientation / familiarization with the company's ways in the Head or Area Offices, followed by a deployment to one of our job sites depending on the available vacancies at the time.

Please read our requirements and the job description in the following page. Please submit your resume by the 14th of July at <https://careers.ccc.gr/CVOnline/>

Please include the following Job Requisition ID in the Remarks field of the online form:

NTUA2017

SITE ENGINEER JOB PLACEMENT

Qualifications & Certificates:

- Diploma In Civil Engineering from NTUA (grade upwards of 7.00)
 - Excellent written and spoken English — C1 or C2 / IELTS: 6.5-8
 - Good working knowledge of the Primavera 6 software system an asset
 - Thesis performed on Planning / Project Management subject an asset
 - Qualifications on Project Management (e.g. PMI certifications) are highly appreciated
 - High level planning/organizing/administrative skills and high level IT skills required — to be confirmed by letters of recommendation from 2 academic and one employer (if applicable) referees.
-

Years of experience:

- Ideally 2-3 years of work experience split between site and office, however recent graduates are encouraged to apply if they meet the above qualifications.
-

Responsibilities & Duties:

- Provide direct support to planning, budgeting and cost engineers on a range of tasks and duties from tendering, preparation of Charts of Accounts, construction schedules etc., to ensure that deadlines and budgets can be met.
- Carry out, under limited supervision, non-complex planning, budgeting and cost engineering activities on smaller, straightforward projects.
- Carry out frequent visits to the worksite to keep up to date with the project's progress, checking the implementation of schedules, identifying and communicating variances.
- Support site engineers with scheduling tasks with emphasis on planning, monitoring and enhancing productivity.
- Prepare cost/scheduling reports and forecasts, studying and assessing trends and fluctuations.
