JOB DESCRIPTION

JUNIOR INNOVATION MANAGER IN RESEARCH PROJECTS

We are seeking a highly motivated individual who will work as Junior Innovation Manager in Research Projects

Job's profile:

- Implementation of relative Tasks for various projects (Dissemination, Communication, Exploitation & Innovation Management Tasks)
- Preparation of the corresponding Deliverables and Technical Reports for the European Commission
- Contribution to the project management of research projects
- Writing up new proposals in new challenges and research funding opportunities

Candidate must have:

- Engineering background – Chemical/Environmental engineering -or relevant- degree (physics, chemistry, materials etc.)
- Fluency in English: understanding, speaking, writing in project management
- 1-3 years of experience in R&D project work and/or management
- Leadership experience, problem-solving skills and strong teaming abilities
- Experience in project reporting for EU, H2020 or National Projects (or relevant)

What we offer:

- International working environment
- Early responsibilities within innovation projects
- Opportunity to learn and progress
- Stimulating scientific environment
- A dynamic environment with enthusiastic colleagues
- A high degree of responsibility and independence
- A competitive remuneration package (Depending on relevant background and experience)

Candidates must enclose the following supporting documents in pdf format:

1. Cover letter in English;
2. Curriculum Vitae in English;
3. Transcripts of all relevant academic degrees;
4. At least one recommendation letter.
