

**Discover  
what you're  
made of**

Imerys is the world leader in mineral-based specialty solutions for the industry. We transform a unique range of minerals to deliver essential functions that are critical to our customers' products and manufacturing process. We are seeking to fill our talent pipeline with our Graduate Program.

**At the moment we are looking for a:**  
**Loading and Processing Engineer**  
In Fokis, Greece

Offering a great opportunity to talented and motivated recent graduates, the Program provides graduates with rich and diverse experiences in a multicultural and challenging environment. The aim of the Graduates Program is to recruit top-performing graduates, enabling them to accelerate their career and become part of the next generation of the key contributors of Imerys. The Program runs for 2 years (24 months) consisting of two 12-month rotations. During this period, Graduates will hold two different positions. All graduates are hired on permanent full-time basis.

**Your benefits:**

- \* Transversal experience
- \* Real responsibilities from the start
- \* Training and development opportunities
- \* Mentoring relationship with experienced manager
- \* Networking opportunities and support from graduates community

At the end of the 2 year program, graduates will be placed in a new challenging role. The program is open to fresh graduates and to graduates with up to 3 years of experience.

**Are you ready to take the challenge?**

The role of the **Loading and Processing Engineer** is to actively coordinate the effective daily operation and lead improvement projects in Itea's loading and processing site.

More specifically you will be responsible for:

- Ensuring that we always apply Imerys Standards regarding Safety, in collaboration with the Shift Supervisors
- Management of Shift Supervisors and personnel for effective daily operation, according to the targets of the Department
- Follow up action plans and ensuring operation's excellence based on KPIs
- Leading various operational and/or performance improvement short – term projects

- Coordinating operation according to mobile equipment availability and collaborating with the maintenance department on periodical and ad-hoc mobile or stationary equipment maintenance
- Collaborating with Imerys Shipping Dept. and shipping agents to coordinate effectively personnel and equipment

Your profile:

- MSc in Engineering (Mining, Chemical, Processing, Mineral Resources)
- Postgraduate degree in Engineering or related fields, will be an advantage
- Fluent knowledge of Greek and English are compulsory
- Other language skills will be considered as a plus
- Advanced computer skills (Office Suite)
- Up to max 3 years of experience in people management and/or Engineering projects
- Project management skills
- Urge for safety is a must
- Strong Communication & Collaboration
- Results oriented
- Innovative thinking
