

qmetric | HR & Career Solutions is currently recruiting, on behalf of [Validata Group](#), for their brand new offices in Thessaloniki, the position of

Software Development Manager (Job opening ID: SDM7)

The company

[Validata Group](#) is a fast-growing multinational company, developing innovative solutions for the Banking sector since 2004. Due to their continuous expansion, we are seeking to recruit a talented Senior C# Developer who enjoys delivering quality software that meets customers' needs.

Your profile

The ideal candidate is required to lead a team of software developers and quality assurance analysts responsible for the development and support of applications for our client's organization. Maintains and drives technical milestones, coordinates development planning and activities with IT and business teams. This position works within a highly interactive team environment and works closely with both functional and technical staff to manage and provide daily direction to implement solutions to business requirements. Provides leadership, motivation and career development, while optimizing resources and schedules to ensure that work objectives are met. In order for you to be able to successfully carry out the duties of the job, you should possess the following:

- At least 10 years' experience in commercial software with C# Web and/or Desktop Applications
- At least 5 years' experience in Oracle and/or MS SQL Database programming
- Degree in Computer Science or equivalent
- Very good command of English language
- Excellent written and verbal skills.
- experience with Agile/DevOps Development Practices
- Experience with multi-tier architecture, OOP and design patterns
- Willingness to learn & advance in the new technologies
- Ability to work on multiple projects simultaneously
- A record of successful delivery of software applications as an individual, team leader and/or development manager
- Strong leadership, project management skills (Agile/ SCRUM), time management and problem solving skills.

Desirable Skills:

- Experience in development / support of banking / telecommunication software
- Experience with XML, JavaScript, HTML
- Experience with Unix/Linux

Our Client offers

In case you are selected for the specific position, you will have access to the following:

- Competitive salary with additional benefits and perks
- Regular holidays and vacation time
- Ability to work remotely
- Generous work space with state of the art hardware and software
- International career opportunities.
