

Junior Electrical Engineer (Entry-Level)

DASE Engineering is a Consulting Company with a high level of expertise and experience in the detailed design of electro-mechanical equipment on a wide range of buildings. Our company takes over projects in large-scale office buildings such as the Kaizen Campus, in Marousi Athens and the new PwC Offices, on Kifisias Avenue, both will be certified with LEED and WELL certifications for sustainable buildings. The company has also a strong presence in the industrial sector, in hotels, malls, and residential applications.

DASE Engineering seeks to recruit an Electrical Engineer to participate in the Design Engineering team. The position is based in our offices on Kifisias Ave., Chalandri.

Main duties and responsibilities

- Assist in detailed design on heating, ventilation, air-conditioning, plumbing and piping systems.
- Design building electrical installations.
- Design lighting, voice/data, fire detection installations.
- Prepare cost estimation and technical specifications.
- Cooperate with internal engineers and suppliers to execute complex and high-demanding projects.

Requirements

- University Degree in Electrical Engineering (5-year studies).
- 0-3 years of working experience in a relevant position.
- Excellent knowledge of Microsoft Office.
- Knowledge of CAD software (AutoCAD is preferred).
- Familiarity with 4M, Dialux will be an asset.
- Fluency in English language verbal and written.
- Team spirit work.
- Fulfilled military obligations (for male candidates).

Benefits

Our company offers a competitive remuneration package and dynamic working environment, with a mixed team of highly experienced and young engineers, that encourages the continuous learning and development.

Would you like to be part of our team? Then we look forward to receiving your application by email to info@daseike.com
