

Join our Technology Team In Warsaw

Goldman Sachs is a leading global investment banking, securities and investment management firm that provides a wide range of financial services to a substantial and diversified client base that includes corporations, financial institutions, governments and individuals.

GOLDMAN SACHS TECHNOLOGY

Work, learn and grow as part of our global technology community. Own every aspect of your products, front to back, spec to maintenance. Technology is at the critical center of our business. Our dynamic environment requires entrepreneurial thinking and innovative solutions. Join our global community of thought leaders right here in Warsaw and see what you can build.

At our Warsaw office, you will:

- Join us in our growing and dynamic office located on the top floors of the Warsaw Spire building
- Make an impact, have a voice and take a leadership role in the Technology Division
- Be part of a global team of engineers, based in 60 offices across 35 countries and speaking more than 100 different languages
- Build solutions to some of the most complex problems in the industry, with over 1.5 billion lines of code written to date
- Gain exposure to a wide variety of technologies from Java, to C++, Hadoop, Scala, Docker, Linux, Windows, SQL and NoSQL and databases.
- Develop your skills, learn from the best and participate in world-class training programmes
- Make a difference in the community we work and live in through our diversity and outreach programmes
